ARD CONGO SA IS CERTIFIED LLOYD'S ISO 9001-2008

Our certification was successful. It was long, fastidious but the result is there. The lifting department has just been certified... The procedures were already in place but are now officially recognized by a world-renowned organization. This certification reinforces the seriousness with which ARD CONGO SA manages its staff and production. ARD CONGO SAs quality manager is working to certify the other branches of production. We are proud to be the first company to be certified ISO 9001-2008 in Africa.
